

OMERO group owner

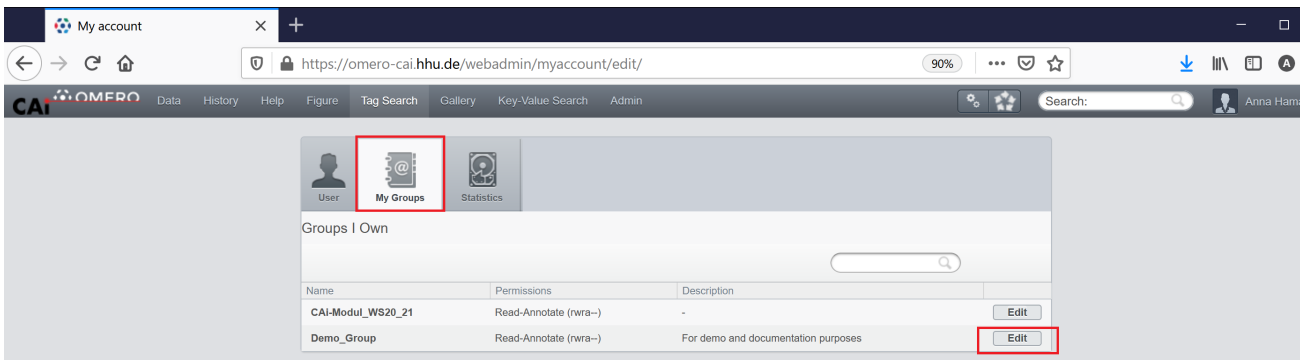

As a group owner you have additional permissions within your OMERO group. One important permission is the management of the users within your group.

Step-by-step guide: I'm a **group owner**, how can I modify the users in my group?

- Left-click on your profile (top-right within the OMERO web page) > "User Settings".

- Choose the tab "My Groups" and click on the "Edit" button related with the group you would like to modify.

- Left-click into the "Members" field will open a list of persons you can add to your group. By writing a part of the name into this field, the list of persons will be filtered.
- If you found the person you would like to add, click on it to add it to the "Members" field.
- Afterwards use "Save" to make your change permanent.

Edit group

Cancel

Name: Demo_Group
Description: For demo and documentation purposes

Fields marked in red are mandatory.

Permissions: ☐ Private
☐ Read-Only
☒ Read-Annotate
☐ Read-Write

Owners: Anna Hamacher (ansla100)

Members: Anna Hamacher (ansla100)
